EXPERIENCE

Student Trainee
19 Coding School (42 Network) - Brussels

📅 July 2022 – July 2023

- Completed a year-long, **project-based program**, excelling both individually and as a collaborative **team member**. Successfully delivered **10 diverse coding projects**, demonstrating adaptability and strong independent problem-solving abilities

Cashier (Part-time with 19)
Belchicken - Brussels

📅 May 2022 – June 2023

Lawyer
Ankara - Turkey

📅 August 2018 – July 2019

PROJECTS

Social Network Website   *Website* *GitHub* *YouTube*
Django | JavaScript | Python | API

- Proficiently utilized **Python, Django**, and **JavaScript** to architect and develop a dynamic social networking web application, reinforcing user engagement through robust real-time features and **RESTful API** integration.

Library Management Web Application   *GitHub* *YouTube*
Python | Flask | SQL

- Developed a feature-rich **Flask** web application, utilizing **Python** as the coding language and **Bootstrap** for responsive UI design. The project highlights web development, user authentication, robust password security, **SQLite data management**, and adherence to code quality and security standards.

E-Commerce Auction Site   *GitHub* *YouTube*
Django | Python | SQL

- Developed a **Django** web application for online auctions with features including user authentication, creating and listing items, bidding, and managing a watchlist.

ChatBot   *GitHub* *YouTube*
API Integration, JavaScript, Django | AI

- Developed a **Django-based** web application that leverages the **Bard API** to provide **AI-powered** chatbot capabilities. Enabled users to engage in text conversations with the chatbot, view chat history, and interact with previous discussions.

News Automator   *GitHub* *YouTube*
Python | API Integration | JSON | Scripting

- Created a **Python script** for News **API integration**, enabling the retrieval of news articles and sources.

EDUCATION

CS50
Harvard University

📅 July 2023 – Present

- Experienced in building **full-fledged** web applications with **C, Python, SQL, HTML, CSS**, and **JavaScript**, using frameworks like **Django** and **Flask**, including **API** development.

Bachelor of Laws
Anadolu University (Turkey)

📅 2015 – 2018

- Graduated with honors from Anadolu University Law School with a **GPA of 3.68**.

SKILLS

Languages: Python, JavaScript, SQL, C, HTML, CSS

Frameworks: Django, Flask, Restful API's, Bootstrap

Tools: Automated testing (Pytest), Bash, Version control (Git), GitHub

Programming Concepts: Object Oriented Programming (OOP), Algorithms, Data structures, Unit testing, Debugging, Algorithmic thinking, Problem-solving

Soft Skills: Teamwork, Communication Skills

CERTIFICATES

Harvard University

- Web Programming with **Python** and **JavaScript** *(October 2023)*
- Introduction to Programming with **Python** *(September 2023)*
- Introduction to the intellectual enterprises of **computer science** and the **art of programming** *(August 2023)*

VOLUNTEERING

Serve the city Brussels - Red Cross Belgium

- Engaged in volunteer projects, including "English for refugees" and "Jourdan Games Fun," making a positive impact on the community.
